INE-AW409S

Emotion in Mobility

9-inch Digital Media Station

General Features

Digital-Media-Station

Introducing the Alpine iNE-AW409S, a custom-fit multimedia head unit offering a sharp 9-inch laminated WXGA HD display, running on an intuitive Alpine OS for fluid, responsive performance.The cinematic 9-inch WXGA display takes picture quality to the next level. Images remain razor-sharp and vividly colorful at any angle, bringing HDMI sources and USB video to life in stunning high definition.

Sound Quality

Enjoy intuitive and effective user-friendly sound tuning with EQ presets and fader/balance control, letting you tailor the audio staging to your specific vehicle and setup.

Onboard Applications

The iNE-AW409S features many pre-loaded applications for access to navigation, music, video, & stationary entertainment. Enjoy easy access to entertainment and communication without relying on a mobile phone. Users can also customise the experience or add new apps via USB, creating a seamless, connected in-car infotainment system.

In-Built Wi-Fi Connectivity

The Alpine iNE-AW409S includes built-in Wi-Fi, allowing effortless online access and expanded multimedia capabilities. It can connect to available wireless networks for streaming, app downloads, and internet-based navigation services. The unit links to external hotspots such as a smartphone or portable Wi-Fi device, meaning you can stay connected on the move without requiring an integrated 4G module.

USB Audio/Video Playback

Access dual rear USB inputs offering flexible connectivity for multiple devices. One port supports high-speed data transfer, firmware updates, and media playback, while the second provides convenient access for charging or connecting a flash drive. This dual setup allows passengers to use different devices simultaneously, ensuring continuous access to music, apps, and updates without swapping cables.
