2-WAY COAXIAL IN-CEILING LOUDSPEAKER

An accessible introduction to the world of Elipson in-ceiling speakers.

The Elipson Ambient IC6 and IC8 are ceiling-mounted speakers designed to deliver clear, balanced sound reproduction whilst remaining discreet. Their 2-way coaxial design combines a 13 mm Mylar tweeter with a polypropylene mid-bass driver measuring 165 mm for the IC6 and 200 mm for the IC8.

Easy to install in a ceiling, they offer a simple and affordable solution for providing sound in a room, complementing a home cinema system or playing music on a daily basis. The IC6 delivers up to 70 W, whilst the IC8, thanks to its larger-diameter driver, can reach 90 W.

Discreet and versatile, they provide an accessible entry point into the world of Elipson in-ceiling speakers.
