FUNCTIONS

Default Menu:
Master Volume, Subwoofer Volume, Fader, Balance, Source selector (Aux 1, Digital Optical).

H8 DSP Memory*:
H8 DSP memories selection.

DRC HE enables the main system control without the use of a PC. Thanks to this device, installed in an ergonomic position within the car dashboard, the user can: choose between two "tuning" configurations previously saved using the PC software; select the source from the master, auxiliary and optical digital inputs; adjust main system functions (volume, balance, fader and subwoofer volume).
